

Press Release 2018- 08-23

**GAME ON
MOLLY LOWE
LILITH PERFORMANCE STUDIO**

Lilith Performance Studio in Malmo, Sweden proudly presents GAME ON – A major visual art performance and large-scale exhibition by the American artist Molly Lowe.

Lilith Performance Studio has transformed into a tomb like sports arena with a giant life sized Foosball court. The performance GAME ON by Molly Lowe is a surreal nightmare of a game that ultimately makes us question our own involvement and the relationship between being a spectator and participant, consumer and citizen.

From operatic halftime shows, to shamanistic mascot ceremonies, and gory showdowns, Lowe is also questioning the competitive nature of our allegiances, and the violence that derives from that.

Molly Lowe's (b.1983, California) imagery retrieves power from below, and originates in uncomfortable feelings and limitations that are associated with living in a human body today. With a playful and direct approach to sculpture, video, film, performance and sound, Lowe builds an idiosyncratic aesthetic that grabs our immediate present and questions the hyper voyeuristic culture we live in.

As the first institution in the Nordic countries, Lilith Performance Studio is honored to collaborate with this exceptional emerging artist around a work that will be her biggest ever so far.

After five live performance evenings the exhibition GAME ON will open as a continuation of the work. The large scale spatial installation includes sound works and live footages and videos from the performance; a frozen moment from GAME ON.

Lilith Performance Studio is an independent arena for practical artistic research based in Malmö, Sweden, focusing on visual art performance and are as a production space for visual art performance the first of its kind in the world.

The studio originates new large-scale performances by inviting visual artists to create exceptional performance pieces in a close collaboration with the Studio, from conceptualization to presentation. Since its inception 2007, LPS has produced over 50 large-scale performances in collaboration with artists from around the world.

The Studio is found and run by the Artists and the Artistic Directors Elin Lundgren and Petter Pettersson.
